

JUBAYER JR

FRONT-END DEVELOPER

Profile

Junior Front-end developer with 1.5 years of experience.

WORK EXPERIENCE

SynthiTech – Sahara City, Tunis, Tunisia

Front-end Developer - March 2021 - present

work area :

- ReactJS was used to develop and build user interfaces, which helped to produce interactive and dynamic online apps.
- Developed and improved features in collaboration with a team of developers in an Agile environment, guaranteeing high-quality code and adherence to project deadlines.
- Improved application speed and user experience by optimizing the performance of React components through the use of best practices including memoization, lazy loading, and code splitting.
- included more third-party libraries and APIs to expand the capabilities and user interactions of React apps.
- I carefully collaborated with UI/UX designers to leverage React and CSS frameworks like Bootstrap or Material-UI to turn wireframes and mockups into pixel-perfect, responsive user interfaces.
